

Creating the Path to Life-Changing Care

About R Y Group

R Y GROUP is a firm built around Turnkey Interior Solutions. It was established in 2003 through the unyielding commitment and dedication of Rajesh Yadav. A man who always dreamed big and made no compromises on quality

Drawn from the uniqueness of each project and each client, Ry Group creates spaces for living that are simple, yet efficient, and timeless. The foundation of our buildings is rooted in modernism, and in our love for and appreciation of new materials, construction methods, and energy efficiency. We imbue each task with contemporary aesthetics that emphasize the values of clarity and simplicity, the appreciation of nature, and the integration of natural energy into the built form. To us, design, is a problem-solving endeavor. Often, we find it to be a puzzle with many constraints and a simple elegant solution.

At RY Group, we work hard to find the solution: the one that melts away all concerns, and in which there remains an uncluttered, efficient, and simple visual space for working, playing, and living. Aligned with this problem-solving exercise, we also guide our clients through the maze of regulatory issues, budget concerns, structural requirements, sustainable measures, material choices, and functional needs such as universal design to ultimately help them arrive at a place of ease and clarity We have the ability to provide hands-on, principal involvement from start to finish. We actively listen to the wishes and concerns of every client, and through many conversations and personal interactions, we make each project the clear embodiment of their dreams.

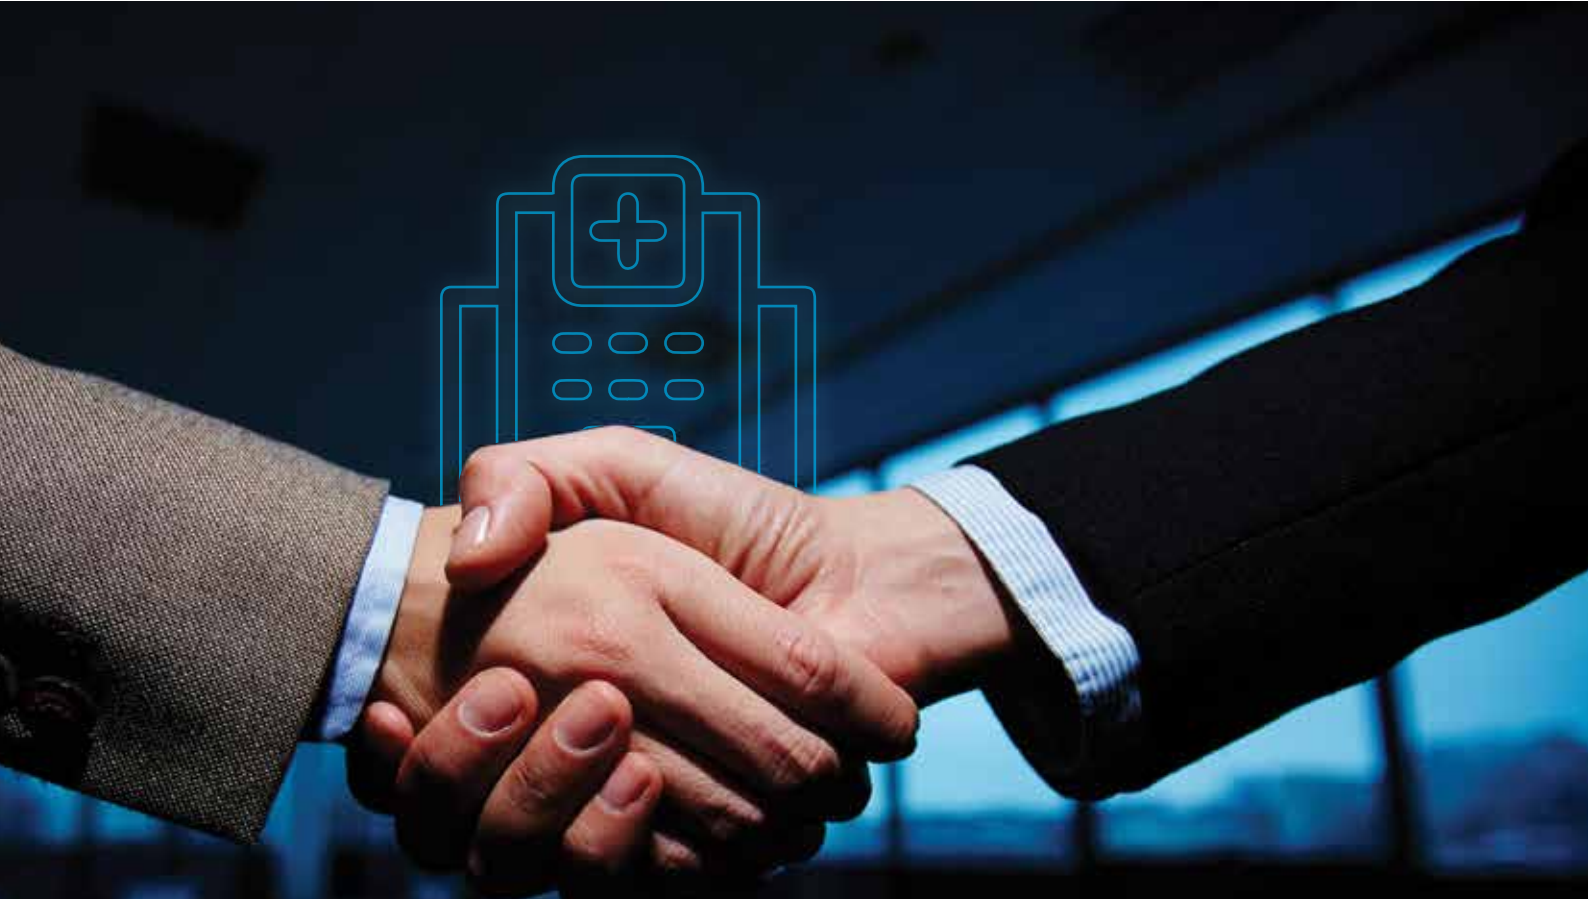

VISION N

To be a world-renowned brand that changes the course of healthcare for the better.

MISSION N

To offer the most premium yet cost-efficient solution to building healthcare.

Our Humble Beginnings

In the year 2005, Rajesh Yadav, CEO, established Rajesh Yadav & Associates. His firm managed to acquire hospital accreditation, system setups, and HR training. Not long after the launch of this association, Rajesh found the first-ever project

coming his way. Thus, Anand Hospital was built upon the promise and strong foundation of tremendous hard work and dedication. This project followed the completion of 14 projects by the end of the year.

The Steady Rise

This was only the beginning as surplus projects started to see the light of day due to the focused endeavours undertaken. For instance, the firm began taking up projects in the city of Pardi, Vapi. Rajesh Yadav & Associates was also appointed to certify district hospitals and child care centres as per international guidelines by the NRHM (National Rural Health Mission), Govt. of Madhya Pradesh.

Venturing towards Diverse Achievements

2005

Rajesh Yadav & Associates have established in 2005.

Delegate your Projects to RY Group

We plan, design, and execute prefabricated hospitals and health clinics. RY Group will give you a dedicated team at your disposal to handle all tasks from start to finish.

We consult about spaces suitable for increasing infrastructural capacity.

Provide ways to build flexible modular healthcare clinic space.

Handle the construction of the final design of the facility.

RY Group is the glue that sticks the team together, be it the design specialists, contractors, or other key project stakeholders.

- * We oversee the administration of contracts, building regulation compliance, fee negotiation with specialist contractors, and management of budgets.
- * We conduct project programming and on-site delivery to ensure the project gets built on time and within budget while protecting the integrity of the design and ensuring full compliance with regulations.
- * Our firm also manages retail project management services that cover light touches, re-models, re-sites, downsizes, roll-outs, fit-outs, and refurbishments.
- * We manage all aspects, from design to plan approvals to overseeing the work on-site at every stage.
- * We also cater to the opening of your store, delivering your hospital design and fit-out project on time and within budget.

Projects Accomplished

First, we have a definite, clear practical ideal; a goal, an objective. Second, have the necessary means to achieve our ends: wisdom, money, materials, and methods. Third, adjust all our means to that end.

Client: **Dr. Sairta Mehta**
Location: **Mulund, Mumbai**

Our Team

RAJESH YADAV
Founder

Rajesh Yadav graduated from Dahanukar College in 2003, in commerce. He joined a CA firm, but it took him just one day to realize that it wasn't the life for him. He joined the hospital consulting firm next door as a marketing executive. It took him 7 months to be promoted as an auditor for hospital systems.

In 2006, he was given the opportunity to work as an independent auditor in South Gujarat at Nirmal Children's Hospital, where he met Dr Suresh Bhagwat a prominent figure in hospital management consultancy and systems. On the advice of Dr. Bhagwat, a firm called Rajesh Yadav and Associates was established with the purpose of healthcare management and administration. However, as experience was gained, the problems that came with building hospitals showed themselves in the form of dealing with multiple agencies, approvals and permit hassles, unreliable contractors, and many more. Thus, RY Group was established to tackle these issues by developing in-house teams to fulfil all the needs and requirements for building healthcare.

DR. SATYENDRA B SINGH
Managing Partner

Dr. Satyendra B Singh is a seasoned healthcare professional with over 15 years in medical practice. His background includes extensive clinical experience, an MBA, and an MHA, which together allow him to blend clinical expertise with healthcare management and finance. Dr. Singh has successfully revitalized struggling hospitals, focusing on financial stability and high standards of patient care. He is also skilled in designing and developing healthcare facilities to ensure they meet top standards of functionality and comfort. As a consultant, Dr. Singh offers valuable insights into healthcare finance, management, and facility development, aiming to enhance healthcare delivery and operational excellence.

DESIGN TEAM Architectural Team

With a recognised healthcare consultancy. Sanjeevani Sagwekar Aryamane has spent the last five years concentrating on healthcare planning and has designed and oversaw medical complexes with anywhere from 100 to 750 beds. 18 years of cumulative experience working with renowned architects like Kadri Consultants Pvt. Ltd. and Atul Desai and Associates on projects ranging from hotels to Institutions, homes to water parks for leisure.

AR. SANJEEVANI SAGWEKAR ARYAMANE
Consultant Architect

Interior Designing Team

Bharat Mistry holds a diploma in interior design and is working as a senior interior designer with RY Group for the past 5 years. He started his career as an interior designer as well as a site surveyor for residential projects under Mr. Sandeep Thakkar. After joining RY Group, he has started to handle all residential and hospital turnkey projects single-handedly. He always tries to explore himself and increase the work potential of himself as well as his colleagues, and tends to create a creative environment.

Project Excuted in India and Abroad

Why Choose Us?

So that you don't have to worry about the intrinsic and complex detailing of every task related to your healthcare project, RY Group offers the following solutions:

Collaborative business experience

We work closely with our customers from planning to execution and develop customized solutions. In the process, our clients are free to focus on their pre-existing commitments while we handle the project entirely.

End-to-end turnkey solutions

We handle every part of the project from the start to the completion stage. Our team of experts includes engineers, architects, project managers, etc.

Highest quality and cost-effective solutions

We don't believe in putting our clients through unnecessary high investments when there is a cost-effective solution. At RY Group, we place the latest technology in the hands of experienced and skilled manpower. Through our business, we empower every client with operational efficiency, design, and engineering optimizations, along with successful project coordination.
